

Brussels, 11 April 2017.

Subject: ELA Award 2017

Dear Mr. Vaz Silva,

It is with great pleasure that the jury of the ELA Award announces that Bosch Car Multimedia Portugal S.A.'s project

"iFlow (IT support System for Inbound Materials) "

is amongst the 6 finalists in this year's selection for the ELA Award Project of the year 2017. Congratulations to you and your team!

The award ceremony will take place on June 1st in Brussels. We would like to invite you to the ELA Award ceremony to receive your Award Certificate, give a presentation of the project and maybe become the winner of this year's ELA Award!!

A press release in English is needed for all communication sent out immediately after the ceremony. In order to prepare this, we need your press release no later than 18th of May 2017.

With your permission we would put your project file up for download at our website with a link to your website after the ceremony. If you like us to publish an adjusted version for the public please send us this before the 24th of May.

Presentations of the projects of the first 6 finalists will be shown to an audience of high level logistics professionals and officials of both the European Parliament as the European Commission. Each finalist has a timeframe of 25 minutes to present his project.

During the presentations the audience can vote for 'the best presentation'.

We would be pleased if you could send us your final presentation as shown in the afternoon, no later than **25th of May**.
