

Brussels, 25 April 2018.

Subject: ELA Award 2018

Dear Mr. Silva,

It is with great pleasure that the jury of the ELA Award announces that CTT – Correios de Portugal S.A's project

“New Production and Logistics Network Design (NARPEL)”

is amongst the 6 finalists in this year's selection for the ELA Award Project of the year 2018. Congratulations to you and your team!

The award ceremony will take place on June 7th in Brussels. We would like to invite you to the ELA Award ceremony to receive your Award Certificate and give a presentation of the project.

A press release in English is needed for all communication sent out immediately after the ceremony. In order to prepare this we need your press release no later than **25th of May 2018**.

With your permission we would put your project file up for download at our website with a link to your website after the ceremony. If you like us to publish an adjusted version for the public, please send us this before **31st of May**.

Presentations of the projects of the first 6 finalists will be shown to an audience of high level logistics professionals and officials of both the European Parliament as the European Commission. Each finalist has a timeframe of 25 minutes to present its project.

During the presentations the audience can vote for 'the best presentation'.

We would be pleased if you could send us your final presentation as shown in the afternoon, no later than **31st of May**.
